## Experience

○ Nov, 2021 - Feb, 2022

Winning Spear

### Volunteer Web Developer

Winning Spear is a cross-functional startup agency that centers its on the areas of digital marketing and insurance, health and fitness, ICT solutions provision as well as mentorship programs. I voluntarily offered to create a website to help put the agency on the digital radar for wide range reachability.

○ May, 2022 - Present

[japhethnamukuru.ga](https://japhethnamukuru.ga)

### Software Developer

Designer, developer and maintainer of a portfolio geared website, [japhethnamukuru.ga](https://japhethnamukuru.ga) as a platform to showcase my digital skills to the world. The website was developed as a result of the intersection of various tech stacks including HTML, CSS, javascript and python.

○ Nov, 2021 - Feb, 2022

Kenya Airports Authority

### Technical support Intern - ICT

Provided ICT technical support at the Kenya Airports Authority as an intern in the quest to fulfill one of the many requirements by the Kenyan education ministry for the award of bachelors degree in computer science.

Duties included reviewing and assessing the functionality of the company systems and implementing security, remotely troubleshooting flight systems, updating flight schedules on the website, installing and troubleshooting new office software and equipment, setting up new office networks, offering help desk support and reporting to the supervisors.
